True Costs of Repeal: Republican Plans to Repeal the Affordable Care Act Will Harm Every Congressional District

March 2017
I. EXECUTIVE SUMMARY

As a direct result of the Patient Protection and Affordable Care Act (ACA), more than 20 million Americans have gained access to affordable and high quality health insurance, and the country’s uninsured rate has reached an historic low. The ACA’s historic coverage gains were achieved by expanding Medicaid and creating online Marketplaces for consumers to purchase insurance with financial assistance in the form of premium tax credits and cost-sharing reductions.¹

Since 2010, congressional Republicans have taken endless actions to sabotage the ACA through funding cuts, legislative changes, and legal challenges. Republicans in Congress are now threatening to repeal the ACA through a process known as budget reconciliation. Repealing the ACA and reversing the Medicaid expansion would harm lower and middle class Americans in every congressional district. Repeal of the ACA’s market reforms and Republican proposals to tax employer-based coverage would harm Americans in every congressional district who receive health insurance through their employer.

To examine the impact of potential ACA repeal on each of the 435 congressional districts and the District of Columbia, the Democratic staff of the Committees analyzed health insurance data collected from sources including the Census Bureau’s American Community Survey (ACS) and Small Area Health Insurance Estimates (SAHIE).

The analysis found: (1) all congressional districts and the District of Columbia have seen reductions in their uninsured rates since the ACA was implemented, with an average reduction of 5.4 percentage points; (2) on average, 396,200 individuals with employer-sponsored insurance in each congressional district are at risk of losing important consumer protections if the ACA is repealed, and could be subject to a new tax on employer-sponsored insurance that would amount to the largest middle-class tax hike in the last 50 years; and (3) on average, 360,200 individuals in each congressional district stand to lose access to free preventive care if the ACA is repealed.

Staff conducted additional analyses to examine the potential impact of repeal on Republican congressional districts, whose representatives have been advocating strongly for ACA repeal. The analysis found: (1) 79 Republican congressional districts have seen greater than average reductions their uninsured rates; (2) 99 Republican congressional districts have seen greater than average Marketplace enrollment; and (3) 85 Republican congressional districts have seen greater than average gains in Medicaid enrollment.

Nearly 80 Republican congressional districts have seen greater than average declines in their uninsured rates. In Rep. David Valado’s (R-CA) district, the uninsured rate declined by 13.1 percentage points—more than twice the average. Below are the ten Republican congressional districts with the largest reductions in the uninsured rate since the ACA was

¹ Approximately 2.3 million young adults under 26 gained coverage as a result of an ACA reform that requires insurers to allow young adults to stay on their parents’ insurance policies, but this analysis does not examine the impact of this provision at the congressional district level.
implemented.

*Denotes state that did not expand Medicaid

Republican congressional districts have also seen significant Marketplace enrollment, which contributed to declines in the uninsured rates even in states that chose not to expand Medicaid. Rep. Ileana Ros-Lehtinen’s (R-FL) district had nearly 100,000 people enrolled in Marketplace coverage. In total, 99 Republican congressional districts saw greater than average Marketplace enrollment. Below are the ten Republican congressional districts with the highest Marketplace enrollment levels.

Republican congressional districts have also seen dramatic gains in Medicaid coverage as a result of the ACA’s Medicaid expansion. More than 80 Republican congressional districts saw greater than average enrollment through the Medicaid expansion. Rep. Greg Walden (R-OR) had the largest Medicaid expansion enrollment of any Republican congressional district, with nearly 130,000 of his constituents enrolling in Medicaid through the expansion. Below are the ten Republican districts with the highest Medicaid expansion enrollment levels.

These Republican congressional districts will be the most negatively impacted by their representatives’ plans to repeal the ACA.

The analysis reveals that repeal of the ACA would endanger coverage for newly insured Americans, millions of whom live in Republican congressional districts. Despite the fact that significant numbers of their own constituents are currently enjoying the law’s many benefits, House Republicans continue to pursue their extreme, ideological agenda of repealing the ACA at any cost.
II. BACKGROUND

A. The ACA has Expanded Access to Coverage, Improved the Quality of Coverage, and Reduced Health Care Spending

The ACA has expanded affordable, quality health insurance to approximately 20 million Americans—many for the first time in their lives.\(^2\) As a direct result of the ACA, 3.4 million children have now gained coverage, as have 3.6 million Americans whose pre-existing health conditions previously prevented them from accessing affordable insurance.\(^3\) An additional 2.3 million young adults have been able to stay on a parent’s insurance plan, and 14 million people are now covered through the ACA’s Medicaid expansion.\(^4\) The ACA has also made health insurance more affordable for approximately 9.4 million Americans who receive financial assistance to purchase insurance through the ACA Marketplaces in the form of advance premium tax credits and the 6.4 million Americans who receive financial assistance in the form of cost-sharing reductions.\(^5\) The country’s uninsured rate is at an historic low—8.6 percent in 2016, as compared with approximately 16 percent in 2010, before the ACA was implemented.\(^6\)

The ACA put an end to the discriminatory and abusive insurance practices that were rampant before the law was enacted. Prior to the ACA, 105 million Americans—including 70 million Americans with employer-sponsored insurance—faced annual or lifetime dollar limits on

their coverage. As a result of the ACA, insurance plans can no longer place annual or lifetime limits on care. Prior to the ACA, women who lived in states that allowed gender rating paid from 10 percent to 57 percent more than men for their health insurance, simply for being a woman. The ACA put an end to this practice. Prior to the ACA, 52.2 million Americans had pre-existing medical conditions that meant they could be charged more for coverage, face exclusions or limitations on their care, have their coverage rescinded, or be denied health insurance altogether. Insurance companies can no longer discriminate on the basis of health status, as a direct result of the ACA.

The ACA has improved the quality of health insurance for all Americans, including those who receive insurance through their employer. Approximately 137.7 million Americans with private insurance—including employer-sponsored insurance—receive free preventive services, such as cholesterol screenings, mammograms, and flu shots. Seniors have also benefited from this reform. As a result of the ACA, approximately 26.5 million seniors enrolled in Medicare Part B received free wellness visits and preventive services in 2015. The ACA also improved the quality of coverage in the individual and small group markets. All insurance plans sold in these markets must now cover ten categories of Essential Health Benefits, including prescription drugs, mental health services, emergency services, and pediatric care.

In addition to expanding access and improving the quality of coverage, the ACA has helped millions of Americans save money by slowing premium growth. Employer-sponsored

9 Kaiser Family Foundation, Pre-Existing Conditions and Medical Underwriting in the Individual Insurance Market Prior to the ACA (Dec. 12, 2016) (online at kff.org/health-reform/issue-brief/pre-existing-conditions-and-medical-underwriting-in-the-individual-insurance-market-prior-to-the-aca).

insurance premiums have increased at an annual rate of approximately 5 percent since the ACA was implemented, as compared to 7.9 percent before the ACA. As a result, the average family paid about $3,600 less for employer-sponsored insurance in 2016 than it would have paid had the ACA not been enacted.\footnote{Council of Economic Advisors, Executive Office of the President, \textit{The Economic Record of the Obama Administration: Reforming the Health Care System} (Dec. 2016) (online at obamawhitehouse.archives.gov/blog/2016/12/13/economic-record-obama-administration-reforming-health-care-system).} Premiums in the individual insurance market have also grown 12 percent to 20 percent more slowly than projected before the ACA was passed.\footnote{Kaiser Family Foundation, \textit{How ACA Marketplace Premiums Measure up to Expectations} (Aug. 1, 2016) (online at kff.org/health-reform/perspective/how-aca-Marketplace-premiums-measure-up-to-expectations); Brookings Institution Center for Health Policy, \textit{ACA Premiums Are Lower Than You Think} (July 21, 2016) (online at www.brookings.edu/research/affordable-care-act-premiums-are-lower-than-you-think/).}

**B. Repealing the ACA Would Harm All Americans**

President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for many of the millions of Americans who received financial assistance to purchase insurance through the ACA Marketplaces in 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who have coverage through the ACA’s historic Medicaid expansion. Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

A recent analysis issued by the Congressional Budget Office (CBO) and the Joint Committee on Taxation (JCT) estimates that 18 million Americans would lose their health insurance in just the first year following repeal, even if the law’s market reforms are kept in place. CBO and JCT predict that 27 million people would lose coverage if Medicaid expansion is reversed, and 32 million fewer people would have health insurance by 2026.\footnote{Congressional Budget Office, \textit{How Repealing Portions of the Affordable Care Act Would Affect Health Insurance Coverage and Premiums} (Jan. 17, 2017) (online at www.cbo.gov/sites/default/files/115th-congress-2017-2018/reports/52371-coverageandpremiums.pdf).}

The Urban Institute has reached similar conclusions: if the ACA is even partially repealed, the number of uninsured Americans would increase by approximately 30 million in 2019, a 103 percent increase.\footnote{Urban Institute, \textit{Implications of Partial Repeal of the ACA through Reconciliation} (Dec. 2016) (online at www.urban.org/sites/default/files/publication/86236/2001013-the-implications-of-partial-repeal-of-the-aca-through-reconciliation_1.pdf).} If congressional Republicans move forward with repeal, more people would be uninsured in 2019 than were uninsured in 2009, before the ACA was passed.
According to the study, approximately 82 percent of those becoming uninsured because of ACA repeal would be from working families, 56 percent would be Caucasian, and 80 percent would not have college degrees.¹⁷

Reversing the ACA’s Medicaid expansion would be exceptionally harmful to the residents of states that expanded Medicaid. In these states, such as California, Illinois, and New York, the uninsured rate would more than double.¹⁸ An additional 4 million Americans who live in states that have not yet expanded Medicaid will lose the opportunity to gain coverage if the ACA is repealed or the Medicaid expansion is reversed.¹⁹ To date, the Medicaid expansion has been entirely federally funded, generating significant savings for state and local governments. If the Medicaid expansion is reversed, states are at risk of losing $78.8 billion in federal Medicaid dollars.²⁰

In addition repealing the ACA and reversing the Medicaid expansion, Republicans in Congress have proposed taxing workers on their employer-sponsored health insurance. This change would shift costs onto employees in the form of higher taxes. According to CBO, the employer tax exclusion subsidizes approximately 30 percent of the average premiums for employees.²¹ In 2016, the tax exclusion was valued at about $250 billion.²² This new tax on employer-sponsored insurance would amount to the largest middle-class tax hike in the last 50 years.

Finally, Republicans have proposed changing current law to allow insurers to charge up to five times what they charge younger adults. This increase in “rate-banding” would increase the federal deficit by $11 billion while raising prices by as much as $3,000 per year for older Americans.²³

III. IMPACT OF REPEAL AT THE CONGRESSIONAL DISTRICT LEVEL

The staff analysis examined uninsured rates, private insurance coverage—including employer-sponsored insurance—Marketplace enrollment and related financial assistance, and Medicaid coverage, in each of the 435 congressional districts and the District of Columbia. The analysis found that repealing the ACA would endanger coverage for millions of Americans in Democratic and Republican congressional districts alike.

A. Constituents in Every Congressional District Saw Substantial Reductions in the Uninsured Rate That Would be Threatened by Repeal

Based on 2012 and 2015 data from the Census Bureau’s American Community Survey (ACS), every single congressional district in the country has experienced reductions in the uninsured rate under the ACA. The average reduction in the uninsured rate from 2012 to 2015 across all congressional districts was 5.4 percentage points. The uninsured rate likely declined even further in many, if not all, congressional districts in 2016.

Congressional districts in states such as Massachusetts, which had near-universal coverage prior to the enactment of the ACA, saw the smallest declines in the uninsured rate, while congressional districts in states such as California and Nevada, which had high uninsured rates prior to the ACA and took advantage of the ACA’s Medicaid expansion, saw the greatest reductions in the uninsured rate. Unsurprisingly, congressional districts in states that expanded Medicaid saw greater declines in the uninsured rate than states that did not—5.8 percentage points versus 4.9 percentage points on average.

Coverage gains have been achieved through a combination of both Medicaid expansion and Marketplace enrollment. This analysis examined Marketplace enrollment as of March 2016 in all 435 congressional districts and the District of Columbia, using data from the Kaiser Family Foundation. All congressional districts experienced significant Marketplace enrollment, ranging from a low of 5,200 enrollees in the 1st Congressional district of Hawaii, represented by Rep. Colleen Hanabusa (D), to a high of 96,300 enrollees in the 27th Congressional District of Florida, represented by Rep. Ileana Ros-Lehtinen (R). Across all congressional districts, the average number of Marketplace enrollees was 26,400.

A large majority of these enrollees are receiving financial assistance to purchase insurance. The average number of Marketplace enrollees receiving advanced premium tax credits was 21,500, or approximately 81 percent of all Marketplace enrollees. The average number of Marketplace enrollees receiving cost-sharing reductions was 14,600, or 55 percent of all Marketplace enrollees.

This analysis also examined Medicaid expansion enrollment using 2015 Medicaid enrollment data from the Medicaid Budget and Expenditure System (MBES) analyzed by the

Kaiser Family Foundation. The 19 states that have not adopted the Medicaid expansion contain 166 congressional districts, while the 32 states and the District of Columbia, which have expanded Medicaid, contain 270 congressional districts. The average number of Medicaid expansion enrollees across all congressional districts was 32,800.

These coverage gains are very much at risk as congressional Republicans move to repeal the ACA through reconciliation. Congressional Republicans intend to eliminate the Medicaid expansion, make additional harmful cuts to the Medicaid program, and eliminate the premium assistance tax credits and cost-sharing reductions—replacing them with less generous tax credits that are unlikely to be sufficient for lower and middle class Americans to afford coverage.26

B. Americans in Private and Employer-Based Insurance Will Also be Impacted by Efforts to Repeal the ACA

Based on ACS data for 2015, the repeal of the ACA would also deeply impact individuals in each congressional district with employer-based coverage, who now enjoy important consumer protections because of the ACA, and individuals with private insurance coverage, who now have access to preventive health services at no cost.

If the ACA is repealed, more than 150 million Americans with employer-sponsored plans stand to lose critical consumer protections and benefits that many have gained thanks to the ACA. These benefits include protection against pre-existing coverage exclusions, prohibition against annual and lifetime limits on coverage, protection against arbitrary and unfair rescissions of health insurance policies, and a requirement that insurers allow children to stay on their parent’s insurance up to age 26.27 On average, 396,200 individuals in each congressional district stand to lose these consumer protections if the ACA is repealed.

As a result of the ACA, most individuals in private insurance policies now have access to preventive services such as immunizations, screenings, and annual checkups, without any co-pays, coinsurance, or deductibles.28 These individuals stand to lose this access if Republicans in

---

28 Grandfathered health plans are exempt from this requirement. See Kaiser Family Foundation, *Preventive Services Covered by Private Health Plans under the Affordable Care Act* (Aug. 4, 2015) (online at kff.org/health-reform/fact-sheet/preventive-services-covered-by-private-health-plans/).
Congress repeal the ACA. On average, 360,200 individuals in each congressional district stand to lose access to free preventive care if the ACA is repealed.

C. Republicans Voting For ACA Repeal Will Harm Their Own Constituents

Congressional Republicans’ plans to repeal the ACA will undermine insurance coverage and access to care for millions of their own constituents. This analysis demonstrates the extent to which constituents in Republican congressional districts are benefitting from the ACA and how many individuals may be directly harmed by efforts to repeal the ACA.

Americans in all 435 congressional districts and the District of Columbia are currently benefitting from the ACA. Below are the Republican congressional districts that experienced the largest coverage gains, as represented by reductions in the uninsured rates. These are the same districts that will likely experience the most dramatic coverage losses if repeal is successful. All of these congressional districts experienced significantly greater reductions in the uninsured rate than the average reduction across all congressional districts (5.4 percentage points).

Districts in states that had high uninsured rates prior to the ACA and decided to expand Medicaid, such as California, Kentucky, West Virginia, and Arkansas, have seen the greatest coverage gains under the ACA, as well as corresponding declines in uninsured rates.

Although most of the congressional districts with the largest reductions in uninsured rates are located in Medicaid expansion states, some of the most significant declines in the uninsured rate occurred in non-expansion states such as Florida, where Marketplace enrollment was particularly high. Moreover, a vast majority of Marketplace enrollees in these districts—93 percent—qualified for and received premium assistance, and a significant majority—72 percent—are receiving cost-sharing reductions. Republican efforts to repeal the ACA will directly harm these constituents, who make less than 400 percent of the federal poverty level (FPL) and are unlikely to be able to afford health insurance without this financial assistance—particularly given the significantly less generous tax credits congressional Republicans have proposed. Congressional Republicans have also proposed completely eliminating cost-sharing reductions, which are crucial for individuals and families below 200 percent of the FPL to be able to afford to use their health insurance. Below are the Republican congressional districts that experienced the highest Marketplace enrollment:

Finally, the ACA’s historic Medicaid expansion has significantly expanded health care coverage across the country, and in many Republican districts. Yet congressional Republicans persist in their efforts to take health insurance coverage away from their own constituents by reversing the Medicaid expansion and cutting Medicaid funding, which will result in rationing of health care for low-income individuals. Below are the Republican congressional districts that experienced the highest Medicaid expansion enrollment:

IV. CONCLUSION

Republicans are poised to repeal the ACA and send the nation back to a time when insurance companies could discriminate against people based on their gender or pre-existing conditions, when 50 million Americans were uninsured, and when health insurance in the individual market often failed to cover important services such as maternity care and prescription drugs. New Republican proposals to tax individuals on employer provided benefits and cut Medicaid funding would impose additional harms on our health care system by raising health care taxes on middle class Americans and rationing care for low-income Americans.

Republican proposals to repeal the Medicaid expansion and eliminate the premium tax credits and cost-sharing reductions would harm lower and middle class Americans in every congressional district. Repeal of the ACA’s market reforms and Republican proposals to tax employer-based coverage would harm Americans in every congressional district who receive health insurance through their employers.

Overall, Republican proposals to repeal the ACA will leave Americans sicker, poorer, and less financially secure.
For purposes of these fact sheets, the number of individuals in each congressional district who have gained health insurance coverage since the ACA was implemented was drawn from the Census Bureau’s American Community Survey (ACS) 1-year estimates of individuals in the district who reported having insurance coverage in 2012 and 2015. The 2012 and 2015 uninsured rates, as well as the change in the district’s uninsured rate from 2012 and 2015, were calculated using this data. Changes in uninsured rates may not sum due to rounding.

The number of individuals in each congressional district who now have health insurance that covers free preventive services was drawn from ACS data on the number of individuals who reported having private health insurance in 2015. This number excludes individuals with TRICARE coverage. This number has also been reduced by 25 percent to account for grandfathered health insurance plans that were excluded from the ACA’s preventive services coverage requirement.

The number of individuals in each congressional district with employer-sponsored health insurance with was drawn from ACS 1-year estimate data for 2015.

The number of individuals who have purchased Marketplace coverage was drawn from a Kaiser Family Foundation estimate of the number of individuals in each congressional district who selected a Marketplace plan as of March 2016.

---

31 Census Bureau, 2015 American Community Survey 1-Year Estimates by Congressional District, Private Health Insurance Status by Sex by Age (online at factfinder.census.gov/faces/nav/jsf/pages/download_center.xhtml).

32 Census Bureau, 2015 American Community Survey 1-Year Estimates by Congressional District, TRICARE/Military Health Coverage Status by Sex by Age (online at factfinder.census.gov/faces/nav/jsf/pages/download_center.xhtml) (TRICARE coverage is considered to be private insurance for purposes of the ACS).

34 Census Bureau, 2015 American Community Survey 1-Year Estimates by Congressional District, Employer-Based Health Insurance by Sex by Age (online at factfinder.census.gov/faces/nav/jsf/pages/download_center.xhtml).

35 Kaiser Family Foundation, Interactive Maps: Estimates of Enrollment in ACA Marketplaces and Medicaid Expansion (online at kff.org/interactive/interactive-maps-estimates-
The number of individuals who have received financial assistance to purchase Marketplace coverage in the form of APTC and CSR was drawn from the Kaiser Family Foundation and the Centers for Medicare and Medicaid Services (CMS). For states that use the Federally-Facilitated Marketplace, the number of individuals in each congressional district who received APTCs was drawn from an analysis conducted by the Kaiser Family Foundation. For states that established State-Based Marketplaces, statewide APTC data was drawn from the March 31, 2016, Effectuated Enrollment Snapshot prepared by CMS. The number of individuals in each congressional district receiving APTCs and CSRs was estimated by applying the distribution of Marketplace enrollment in each district to statewide APTC and CSR data.

The number of individuals in each congressional district who are covered by the ACA’s Medicaid expansion was calculated using statewide Medicaid expansion data from the Kaiser Family Foundation. These figures represent the number of individuals who were part of Expansion Group Enrollment in each state in 2015; this number includes individuals who may have been covered by state-initiated Medicaid expansions prior to the ACA, such as in New York and in Massachusetts. All individuals in the Expansion Group are deemed to have coverage at risk given the uncertainty of state-funded Medicaid coverage if the ACA is repealed and the likelihood of additional Medicaid financing cuts in the form of block grants and per-capita caps. The number of Expansion Group individuals in each congressional district was estimated by applying the distribution of individuals living below 138 percent of the federal poverty line (FPL) in each congressional district, drawn from the 2015 ACS 1-year estimates, to statewide Medicaid figures.

For states that have not expanded Medicaid, the number of individuals in each congressional district who would have been covered by the ACA’s Medicaid expansion had the state adopted the Medicaid expansion was drawn from the Department of Health and Human Services, Centers for Medicare and Medicaid Services, March 31, 2016 Effectuated Enrollment Snapshot (June 30, 2016) (online at www.cms.gov/Newsroom/MediaReleaseDatabase/Fact-sheets/2016-Fact-sheets-items/2016-06-30.html); Kaiser Family Foundation, Interactive Maps: Estimates of Enrollment in ACA Marketplaces and Medicaid Expansion (online at kff.org/interactive/interactive-maps-estimates-of-enrollment-in-aca-marketplaces-and-medicaid-expansion) (accessed Feb. 28, 2017). In the cases of Louisiana, Montana, and North Dakota’s Medicaid expansions, for which Kaiser did not have data, numbers were drawn from theCompilation of State Data on the ACA prepared by ASPE. Department of Health and Human Services, Office of the Assistant Secretary for Planning and Evaluation, Compilation of State Data on the Affordable Care Act (online at aspe.hhs.gov/compilation-state-data-affordable-care-act) (accessed Feb. 28, 2017).
Services’ statewide estimates of the number of individuals who could have gained coverage if all states had expanded Medicaid.  

Congressional district lines in three states—Florida, North Carolina, and Virginia—were redrawn prior to the 115th Congress. Additional analyses were conducted to reflect the current composition of the congressional districts in these states.

For these three states, ACS data was collected at the county level and converted to the congressional district level using a county-to-district crosswalk provided by the Kaiser Family Foundation, derived from the Missouri Census Data Center. This crosswalk produces the percentage of each county that falls into each congressional district and allows for the conversion of county-level data to congressional district-level data for the 115th Congress.

The number of individuals in each district in the redistricted states who have gained health insurance coverage since the ACA was implemented was drawn from both ACS and the Census Bureau’s Small Area Health Insurance Estimates (SAHIE) data. Coverage data for 2012 was drawn from ACS 1-year estimates for counties with populations of 60,000 individuals or more, while 2012 coverage data for counties with fewer than 60,000 individuals was drawn from SAHIE. Data for districts that are comprised entirely of large counties was drawn from ACS and represents the coverage numbers for all individuals, including those 65 and older. Districts comprised of both large and small counties required the combination of ACS and SAHIE data. As SAHIE data is restricted to individuals aged 0 to 64, the ACS data for the large counties within these combined districts were also limited to individuals aged 0 to 64, for both the total population and the uninsured population. County coverage data was then converted to district-level data using the Missouri Census Data Center crosswalk.

The 2015 coverage data in the redistricted states was drawn from updated district-level data for 115th Congress, released by the Census Bureau on February 16, 2017. The data from these updated 1-year estimates was used to calculate the 2015 uninsured rate. For those districts comprised of large and small counties, the updated 2015 ACS data were limited to individuals

41 Census Bureau, 2012 American Community Survey 1-Year Estimates by Congressional District, *Selected Characteristics of Health Insurance Coverage in the United States* (online at factfinder.census.gov/faces/nav/jsf/pages/download_center.xhtml); Census Bureau, 2012 Small Area Health Insurance Estimates Using the American Community Survey (ACS) Data (online at www.census.gov/did/www/sahie/data/20082014/index.html).

42 Census Bureau, American Community Survey 1-Year Estimates by Congressional District, *115th Congress Data Profiles* (online at /t.congressweb.com/l/?YUHMMAALRFRIIONQ).
aged 0 to 64, both for the total population and uninsured population, to ensure appropriate comparisons to 2012 data.

The number of individuals in each congressional district with private insurance and employer-sponsored insurance was calculated generally as described above for non-redistricted states. All data was collected on a county level and converted into district-level data using the Missouri Census Data Center crosswalk.

Private health insurance and employer-sponsored insurance data was not available within the SAHIE data file. As a result, these figures were omitted from the fact sheets for districts comprised of one or more SAHIE counties (those with populations under 60,000).

The number of individuals in each congressional district who enrolled in Marketplace coverage, as well as the number of individuals who received APTCs and CSRs, was calculated generally as described above for non-redistricted states.

The number of individuals who could have become eligible for Medicaid under the ACA’s Medicaid expansion had Florida, North Carolina, or Virginia adopted the Medicaid expansion was calculated using 2014 SAHIE county-level data, which was converted to congressional district-level using the Missouri Census Data Center county-to-district crosswalk. The number of individuals in each congressional district who could have been covered by the Medicaid expansion was calculated generally as described above.

43 Missouri Census Data Center, Home Page (online at mcdc.missouri.edu) (accessed Feb. 28, 2017).

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Byrne’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 15.6% to 10.9%** since the ACA was implemented. **This 4.8 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **328,800 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **348,000 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **29,200 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **26,700 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **22,100 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **25,100 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Palmer’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 9.8% to 7.9%** since the ACA was implemented. This **1.8 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **397,100 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **447,400 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **23,800 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **21,300 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **17,100 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **16,300 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Sewell’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 15.7% to 11.9%** since the ACA was implemented. This **3.8 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **282,500 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **304,900 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **22,300 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **20,300 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **16,700 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **34,200 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Hill’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 14.2% to 9.2%** since the ACA was implemented. This **5.0 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **359,900 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **374,900 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **16,000 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **14,000 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **8,800 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **69,100 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Denham’s (R) district.

Here is what is at risk:

- The district’s uninsured rate has gone from 16.2% to 6.3% since the ACA was implemented. This 9.9 percentage point drop in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- 314,600 individuals in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- 349,300 individuals in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- 23,600 individuals in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- 20,700 individuals in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- 11,800 individuals in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- 74,100 individuals in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance Marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA Marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. DeSaulnier’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 12.5% to 6.2%** since the ACA was implemented. This **6.3 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **401,400 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any copays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **444,700 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **24,400 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **21,400 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **12,200 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, copays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **49,400 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance Marketplaces and the ACA’s historic Medicaid expansion. Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance Marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA Marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. McCarthy’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 15.7% to 5.9%** since the ACA was implemented. This **9.8 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **330,900 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **379,700 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **19,300 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **16,900 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **9,700 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **73,500 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Torres’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 24.8% to 12.0%** since the ACA was implemented. This **12.8 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **280,600 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **327,100 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **24,600 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **21,600 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **12,300 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **74,900 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
March 2017
Impact of ACA Repeal on the 36th Congressional District of California
Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance Marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA Marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Ruiz’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 21.7% to 10.3%** since the ACA was implemented. This **11.4 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **270,800 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **271,700 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **25,200 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **22,100 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **12,600 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **90,400 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

- **The district’s uninsured rate has gone from 18.9% to 9.0%** since the ACA was implemented. This **9.9 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **317,100 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **356,200 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **29,400 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **25,800 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **14,700 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **71,200 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance Marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA Marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Rohrabacher’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 14.0% to 6.6%** since the ACA was implemented. This 7.5 percentage point drop in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **382,200 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **393,700 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **30,200 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **26,500 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **15,100 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **44,600 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance Marketplaces and the ACA’s historic Medicaid expansion. Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance Marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA Marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Perlmutter’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 16.2% to 8.3%** since the ACA was implemented. This **8.0 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **393,500 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **432,900 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **13,300 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **8,200 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **3,500 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **48,100 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. DeSantis’s (R) district.

Here is what is at risk:

- The district’s uninsured rate has gone from 16.5% to 12.0% since the ACA was implemented. This 4.5 percentage point drop in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- 319,900 individuals in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- 335,900 individuals in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- 48,800 individuals in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- 45,100 individuals in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- 33,800 individuals in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- 25,900 individuals in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Murphy’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 19.8% to 11.2%** since the ACA was implemented. This **8.6 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **353,400 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **389,500 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **58,000 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **53,400 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **41,900 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **26,100 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

- **319,700 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **60,000 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **55,700 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **44,100 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **25,300 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Francis Rooney’s (R) district.

Here is what is at risk:

- The district’s uninsured rate has gone from **20.4%** to **14.0%** since the ACA was implemented. This **6.4 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **309,400 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **312,600 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **50,300 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **47,100 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **37,000 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **26,600 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

- **19,300 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **26,200 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Johnson’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 19.7% to 16.2%** since the ACA was implemented. This **3.5 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **340,000 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **379,100 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **45,700 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **40,900 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **31,800 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **31,000 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Gabbard’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 7.9% to 4.3%** since the ACA was implemented. This **3.6 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **364,800 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **424,800 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **8,100 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **6,700 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **4,700 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **62,500 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Labrador’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 15.9% to 10.3%** since the ACA was implemented. This **5.7 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **430,700 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **430,400 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **47,200 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **41,400 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **29,400 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **29,300 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

- **407,600 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **21,200 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **16,100 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **9,900 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **28,300 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
March 2017
Impact of ACA Repeal on the 11th Congressional District of Illinois
Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Foster’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 12.6% to 8.0%** since the ACA was implemented. This **4.6 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **385,400 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **442,900 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **20,200 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **16,200 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **9,700 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **32,300 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Brooks’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 10.3% to 7.2%** since the ACA was implemented. This **3.1 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **443,000 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **496,500 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **22,100 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **17,100 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **9,000 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **27,300 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

Here is what is at risk:

- **The district’s uninsured rate has gone from 13.7% to 12.2%** since the ACA was implemented. This **1.5 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **370,100 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **401,800 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **20,700 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **17,500 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **12,800 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **20,000 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance Marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA Marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Corner’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 15.1% to 6.8%** since the ACA was implemented. This **8.3 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **314,000 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **337,500 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **12,200 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **9,200 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **5,300 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **76,000 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

- **27,100 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **19,000 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **23,200 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
March 2017

Impact of ACA Repeal on the 1st Congressional District of Maine

Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Pingree’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 9.2% to 7.7%** since the ACA was implemented. This **1.5 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **361,500 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **389,300 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **39,200 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **31,700 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **21,000 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **15,800 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA Marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Tsongas’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 4.4% to 3.1%** since the ACA was implemented. This 1.3 percentage point drop in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **394,800 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **457,000 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **23,000 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **17,500 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **14,700 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **45,600 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Upton’s (R) district.

*Here is what is at risk:*

- **The district’s uninsured rate has gone from 11.6% to 6.3%** since the ACA was implemented. This **5.2 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **378,600 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **417,700 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **22,700 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **20,800 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **11,100 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **42,100 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

Impact of ACA Repeal on the 7th Congressional District of Michigan

Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Walberg’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 10.7% to 5.1%** since the ACA was implemented. This **5.5 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **376,700 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **438,200 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **19,600 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **17,800 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **9,900 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **35,000 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

Impact of ACA Repeal on the 5th Congressional District of Minnesota

Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance Marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA Marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Ellison’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 10.9% to 6.6%** since the ACA was implemented. This **4.3 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **363,300 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **392,800 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **17,200 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **5,700 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **1,500 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **39,200 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

- **29,200 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **27,000 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **18,200 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **26,900 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
March 2017

Impact of ACA Repeal on the 5th Congressional District of Missouri

Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Cleaver’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 16.6% to 12.3%** since the ACA was implemented. This 4.4 percentage point drop in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **376,500 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **399,200 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **32,200 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **27,700 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **17,900 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **27,700 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Shea-Porter’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 10.7% to 6.9%** since the ACA was implemented. This **3.8 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **381,500 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **429,300 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **25,900 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **16,200 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **9,200 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **25,300 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Frelinghuysen’s (R) district.

Here is what is at risk:

• **The district’s uninsured rate has gone from 7.5% to 4.4%** since the ACA was implemented. This [3.1 percentage point drop](#) in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

• **459,300 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

• **536,100 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

• **20,000 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

• **16,300 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

• **10,000 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

• **17,900 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
March 2017

Impact of ACA Repeal on the 12th Congressional District of New Jersey

Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Watson Coleman’s (D) district.

Here is what is at risk:

- The district’s uninsured rate has gone from 11.1% to 8.6% since the ACA was implemented. This 2.5 percentage point drop in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- 408,500 individuals in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- 482,400 individuals in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- 19,600 individuals in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- 15,500 individuals in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- 9,800 individuals in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- 40,600 individuals in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

- 364,200 individuals in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- 32,100 individuals in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- 6,600 individuals in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- 2,200 individuals in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- 125,200 individuals in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
March 2017

Impact of ACA Repeal on the 9th Congressional District of New York

Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance Marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA Marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Clarke’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 12.5% to 8.6%** since the ACA was implemented. This **4.0 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **321,800 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **358,400 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **31,800 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **6,500 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **2,100 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **112,700 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

Impact of ACA Repeal on the 21st Congressional District of New York
Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance Marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA Marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Stefanik’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 9.6% to 5.5%** since the ACA was implemented. This **4.1 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **334,500 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **376,900 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **14,400 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **3,000 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **1,000 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **73,700 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Rouzer’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 20.7% to 14.7%** since the ACA was implemented. This *6.0 percentage point drop* in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **41,800 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **38,800 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **28,500 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **26,400 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Hudson’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 18.4% to 11.8%** since the ACA was implemented. This 6.6 percentage point drop in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **35,900 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **33,100 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **24,500 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **24,200 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

- **378,300 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **12,100 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **11,100 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **5,600 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **44,800 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
March 2017

Impact of ACA Repeal on the 7th Congressional District of Ohio

Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Gibbs’s (R) district.

Here is what is at risk:

- The district’s uninsured rate has gone from 13.5% to 9.1% since the ACA was implemented. This 4.4 percentage point drop in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- 382,000 individuals in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- 432,300 individuals in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- 13,100 individuals in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- 11,500 individuals in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- 6,300 individuals in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- 38,800 individuals in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Lucas’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 15.9% to 12.3%** since the ACA was implemented. This **3.6 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **372,300 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **390,200 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **24,600 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **21,400 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **15,200 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **25,100 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Thompson’s (R) district.

Here is what is at risk:

• **The district’s uninsured rate has gone from 8.6% to 5.6%** since the ACA was implemented. This [3.0 percentage point drop](#) in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

• **373,400 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

• **399,700 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

• **16,100 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

• **13,300 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

• **9,400 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

• **34,500 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Here is what is at risk:

- **The district’s uninsured rate has gone from 10.5% to 6.6%** since the ACA was implemented. This 3.9 percentage point drop in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **359,600 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **389,400 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **22,400 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **18,300 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **12,400 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **33,800 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
March 2017

Impact of ACA Repeal on the 18th Congressional District of Pennsylvania

Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Murphy’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 6.5% to 3.5%** since the ACA was implemented. This **3.0 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **425,500 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **453,600 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **20,600 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **14,200 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **10,900 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **23,600 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

- **324,200 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **25,700 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **23,500 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **16,900 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **22,400 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Duncan Jr.’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 11.7% to 9.1%** since the ACA was implemented. This **2.5 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **368,300 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **394,100 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **26,300 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **22,800 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **15,800 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **17,500 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Hensarling’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 23.7% to 20.2%** since the ACA was implemented. This **3.5 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **293,800 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **315,800 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **27,800 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **24,000 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **16,600 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **34,400 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Flores’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 17.9% to 13.6%** since the ACA was implemented. This **4.3 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **380,800 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **425,600 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **23,300 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **18,300 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **13,400 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **31,500 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
March 2017

Impact of ACA Repeal on the 18th Congressional District of Texas

Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Jackson Lee’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 28.1% to 21.9%** since the ACA was implemented. This **6.2 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **270,000 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **309,200 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **34,200 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **28,900 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **21,100 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **44,800 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

- **219,500 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **255,100 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **34,200 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **28,900 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **21,100 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **48,600 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
March 2017

Impact of ACA Repeal on the 30th Congressional District of Texas

Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Johnson’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 27.3% to 20.8%** since the ACA was implemented. This **6.5 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **265,600 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **301,800 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **32,700 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **27,600 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **19,400 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **43,500 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

- **316,000 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **345,100 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **27,900 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **19,600 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **9,800 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **60,700 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Wittman’s (R) district.

*Here is what is at risk:*

- **The district’s uninsured rate has gone from 12.3% to 8.9%** since the ACA was implemented. This *3.5 percentage point drop* in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **34,500 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **29,500 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **20,100 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **12,300 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.

Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA Marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Newhouse’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 19.2% to 11.9%** since the ACA was implemented. This **7.3 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **303,400 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **304,400 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **11,300 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **7,900 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **4,700 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **87,400 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.
Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance Marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA Marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 14 million Americans who enrolled in the Medicaid expansion since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. McMorris Rodgers’s (R) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 12.9% to 5.4%** since the ACA was implemented. This 7.4 percentage point drop in the uninsured rate could be reversed if the ACA is entirely or partially repealed.
- **319,200 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.
- **337,100 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.
- **14,500 individuals** in the district who have purchased high quality Marketplace coverage now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.
- **10,100 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.
- **6,100 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.
- **76,300 individuals** in the district who are covered by the ACA’s Medicaid expansion now stand to lose coverage if the Republican Congress eliminates the Medicaid expansion.

- **28,400 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **25,300 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **15,300 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **2,800 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
March 2017

Impact of ACA Repeal on the 4th Congressional District of Wisconsin
Committee on Energy and Commerce, Democratic Staff
Committee on Oversight and Government Reform, Democratic Staff

Roughly 20 million Americans have gained access to health care through the coverage provisions of the Affordable Care Act (ACA), including subsidized coverage through the insurance marketplaces and the ACA’s historic Medicaid expansion. President Trump and congressional Republicans’ plan to repeal the ACA will have devastating effects for all Americans. Eliminating premium tax credits and cost-sharing reductions will likely make coverage unaffordable for the 10.4 million Americans enrolled nationwide through the ACA marketplaces as of October 2016. Similarly, eliminating the Medicaid expansion will likely result in coverage becoming unattainable or unaffordable to the more than 11 million Americans who were newly eligible and enrolled in Medicaid since 2014. Additionally, Republican proposals to tax employer-based health coverage could destabilize employer-based coverage and raise taxes on individuals who have health insurance through their employer.

This fact sheet summarizes what is at stake as Republicans in Congress consider eliminating many of the ACA’s provisions through a process known as budget reconciliation. Repeal of the law could endanger the health and welfare of thousands of individuals and their families in Rep. Moore’s (D) district.

Here is what is at risk:

- **The district’s uninsured rate has gone from 13.6% to 9.2%** since the ACA was implemented. This **4.5 percentage point drop** in the uninsured rate could be reversed if the ACA is entirely or partially repealed.

- **298,700 individuals** in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.

- **344,000 individuals** in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, protection against unfair policy rescissions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

- **26,900 individuals** in the district who have purchased high quality Marketplace coverage through now stand to lose their coverage if the Republican Congress dismantles the Marketplaces.

- **23,500 individuals** in the district who received financial assistance to purchase Marketplace coverage in 2016 are now at risk of coverage becoming unaffordable if the Republican Congress eliminates the premium tax credits.

- **16,500 individuals** in the district who are receiving cost-sharing reductions to lower out-of-pocket costs such as deductibles, co-pays, and coinsurance, are now at risk of health care becoming unaffordable if the Republican Congress eliminates cost-sharing reductions.

- **4,900 individuals** in the district who could become eligible for Medicaid if the state expanded Medicaid will now lose the opportunity to gain coverage if the Republican Congress eliminates the Medicaid expansion.
