2015	\$7.890	\$8.140
2016	\$8.592	\$8.140
2017	\$8.267	\$8.178 ^e
2018	\$5.655	\$8.824 ^f
2019	\$6.146	n/a

Sources: Prepared by CRS using the most recent information available from annual appropriations acts, committee reports accompanying the annual appropriations bills that fund the Environmental Protection Agency (EPA), and explanatory statements published in the *Congressional Record*. In instances in which these sources did not provide the information for a program or activity selected by the Committee, we deferred to Administration budget documents, including the President's annual budget requests as presented by OMB, and EPA's annual congressional budget justifications. Tables in this memorandum use a combination of these sources to present the information requested, as no single source included all items. The FY2013 post-sequestration enacted amounts are as reported in EPA's FY2013 Operating Plan. Consistent with relevant supplemental appropriations in the earlier fiscal years in the table above, CRS combined the base appropriations and the Hurricane Sandy supplemental appropriations for FY2013 to present the aggregate of these amounts that EPA broke out separately. n/a = not available (FY2019 appropriations not yet enacted)

- a. Within the total for FY2005, Congress provided \$3 million in supplemental appropriations (P.L. 108-324) for the repair of hurricane-related damage to EPA's Gulf Ecology Division Facilities in Gulf Breeze, FL.
- b. Within the total for FY2006, Congress provided \$15 million in supplemental appropriations (P.L. 109-234 and P.L. 109-148) to address underground storage tank needs in areas affected by Hurricanes Katrina and Rita, and an additional \$6 million (P.L. 109-234) for other hurricane-related assistance.
- c. Within the total for FY2009, Congress provided \$7.22 billion in supplemental appropriations (P.L. 111-5) for various programs and activities.
- d. Within the total for FY2013, Congress provided \$577.3 million in supplemental appropriations (post-sequestration) for various programs under the Disaster Relief Appropriations Act, 2013 (P.L. 113-2).
- e. Within the total for FY2017, Congress provided an additional \$100.0 million for the Drinking Water SRF to address lead in drinking water and \$20.0 million for WIFIA in the Further Continuing Appropriations Act, 2017 (P.L. 114-254 Division A) enacted prior to full-year funding in the Consolidated Appropriations Act, 2017 (P.L. 115-31).
- f. Within the total for FY2018, Congress provided \$8.06 billion in Title II and \$766.0 million in Title IV, Section 430 under Division G of P.L. 115-141, Consolidated Appropriations Act, 2018. The \$766.0 million in Title IV was for EPA Superfund emergency response, removal, and remedial actions at eligible sites, and for EPA water infrastructure.

Source: Prepared by CRS using the most recent information available from annual appropriations acts, committee reports accompanying the annual appropriations bills that fund the Environmental Protection Agency (EPA), and explanatory statements published in the *Congressional Record*. In instances in which these sources did not specify or address the information for a program or activity you selected, we deferred to Administration budget documents, including the President's annual budget requests as presented by OMB, and EPA's accompanying annual congressional budget justifications. Tables in this memorandum use a combination of these sources to present the information you requested, as no single source included all items. The FY2013 post-sequestration enacted amounts are as reported in EPA's FY2013 Operating Plan. Consistent with relevant supplemental appropriations in the earlier fiscal years in the table above, CRS combined the base appropriations and the Hurricane Sandy supplemental appropriations for FY2013 to present the aggregate of these amounts that EPA broke out separately. n/a = not available (FY2019 appropriations not yet enacted)

- a. OMB presented \$311.0 million in total receipts, including \$15.0 million in supplemental appropriations from the general fund.
- b. Within the total for FY2006, Congress provided \$15.0 million in supplemental appropriations (P.L. 109-234 and P.L. 109-148) to address underground storage tank needs in areas affected by Hurricanes Katrina and Rita.
- c. Beginning with the FY2008 enacted appropriations, the amount for that fiscal year and thereafter incorporates more recent accounting of the House Appropriations Committee reflecting statutory authority in P.L. 109-58 to fund underground storage tank regulatory activities mainly with LUST Trust Fund monies in lieu of general revenues.
- d. Within the total for FY2009, Congress provided \$200 million in supplemental appropriations (P.L. 111-5).
- e. The reduction in interest accrued to the LUST Trust Fund in FY2013 and subsequent fiscal years is attributed primarily to the smaller balance of the LUST Trust Fund remaining after transfers to the Highway Trust Fund, including a \$2.4 billion transfer authorized in P.L. 112-141, a transfer of \$1.0 billion authorized in P.L. 113-159, and a \$300 million transfer authorized in P.L. 114-94. Prior to these transfers, the unappropriated balance of the LUST Trust Fund had been \$3.33 billion at the beginning of FY2012. The Administration has estimated an unappropriated balance of \$541 million in the LUST Trust Fund as of the beginning of FY2019. (See Office of Management and Budget, *Fiscal Year 2019 Budget of the U.S. Government*, Appendix, p. 1048.)
- f. Within the total for FY2013, Congress provided \$4.75 million (post-sequestration) in supplemental appropriations (P.L. 113-2) for the LUST Trust Fund account.
